<b>Allegheny County</b>										
Allegheny	#4	ALLEGHENY SINGER RESEARCH INSTITUTE	Mobile MAT	\$579,244.64	B	• A. Treat Opioid Use Disorder (OUD) • B. Support People in Treatment and Recovery	0	Expanding access to mobile bridge medication for opioid use disorder at 4 mobile low barrier van sites in Mon Valley, South Hills, and East Pittsburgh. The purpose is to connect vulnerable populations in targeted geographic areas with limited access to medication-assisted treatment (MAT) through mobile van locations, as well as providing assistance with applying for health insurance, housing, employment and transportation assistance. This may also include referrals to substance use treatment centers.		2 Approved
Allegheny	#7	COMMUNITY CARE BEHAVIORAL HEALTH ORGANIZATION	CONTINGENCY MANAGEMENT PILOT	\$1,728,000.00	B	• A. Treat Opioid Use Disorder (OUD) • L. Research	0	CCBHO will develop, implement and manage a contingency management pilot project tailored to address the ongoing SUD crisis in Allegheny County, specifically the pervasively high rates of OUD diagnoses. Contingency management is an evidence-based intervention program with over 100 trials demonstrating positive impacts on abstinence and treatment adherence. CCBHO will provide participant management, provider management and data collection for evaluation. The pilot program includes the distribution of small financial incentives to enrolled participants for drug treatment adherence that reinforce positive behaviors, such as abstinence, staying current on medications, and completing scheduled therapy.		2 Approved
Allegheny	#8	JADE WELLNESS CENTER	RECOVERY HOUSING	\$181,000.00	B	• B. Support People in Treatment and Recovery	0	The funding expands the supply of recovery housing for individuals with substance use disorder. The property is being acquired with settlement funds, but operation of the recovery house will be funded through other means. The property will operate as a recovery house for at least five years in partnership with Allegheny County Department of Human Services.		2 Approved

Mercer	#10	Minority Health Center	Operation Endorse Resistance of Substance Abuse Everywhere Program plus purchase of building & minor renovation	\$101,322.06	B	• J. Leadership, Planning and Coordination	0	This organization is a grass roots organization and has struggled to find funding over the years for operation. \$44,130.62 of this amount was used to purchase a building (and do ADA improvements to the building) because they rented their current facility, and the owner was selling it leaving them without a facility to run their organization. As a result of their limited funding at times over the years they have not been able to serve their BIPOC community. We do not know the exact date this program started but it has been in place for at least 10 years.	2	Still Under Consideration

Montgomery	#6	Montgomery County Department of Health and Human Services	Crisis Services - Mobile and Walk-in	\$1,390,000.00	B	• C. Connect People Who Need Help to the Help They Need (Connections to Care)	0	'The Montgomery County Department of Health & Human Services is looking to expand the continuum of services offered via the public behavioral health system. Specific to crisis response, Montgomery County currently provides the community with two 24/7 hotlines, 2 peer warm lines, a 24/7 mobile crisis team, and two crisis residential programs. There is also a small crisis walk in center for adults. The Department of HHS has been working toward the development of a new walk-in Crisis Receiving Center to serve all ages, 24 hour, 365 days a year. This center will serve any individual experiencing a behavioral health crisis, including substance use and overdose related crises, and will function as a 24/7 Drug & Alcohol Assessment and Referral site. Upwards of 25% of all behavioral health crisis calls currently fielded by the hotline and mobile teams are for individuals who report substance use, including: opioid use, withdraw, and overdose. The future CRC will be a place where those individuals can go for assistance and referral. Currently in Montgomery County, we have a robust offering of someone to call (2 hotlines, 2 warm lines) and someone to come (mobile crisis team). A 24/7, all ages Crisis Receiving Center will provide individuals and families with a key resource to any ideal crisis response system: somewhere to go. A CRC, also called a 'diversion center' or 'crisis resource center' will provide an alternative to Emergency Departments for individuals in crisis. The CRC will be staffed with a multidisciplinary team of helpers including: peer specialists, certified recovery specialists, case managers, clinicians, nurses, and physicians. A one-stop shop for individuals and families in crisis to find help and manage a crisis situation. The CRC will also provide an accessible option for first responders looking to connect individuals to assistance, as an alternative to transport to an Emergency Department or utilization of the criminal justice system'	3	Still Under Consideration

The purpose of our DEC team is to address Drug Endangered Children issues with the primary goal of establishing a multi-disciplinary effort for the appropriate identification and intervention of children who have been exposed to or live in dangerous environments as a result of manufacturing, cultivation, possession, distribution or use of drugs by a parent or caregiver. This multi-disciplinary collaborative effort also assists in improving the relationships and the collaboration between DEC partner agencies and bring disciplines together to respond to these children in an efficient and appropriate way. This response promotes the health and safety of children in Tioga County that are found in dangerous environments. We are committed to this endeavor and the positive working relationships that the Drug Endangered Children Alliance has allotted us.	3	Approved

York	#7	York Adams Drug & Alcohol Commission	ROMPPA Prevention Project	\$200,000.00	A	• G. Prevention Programs	0	\$18,258 has been encumbered but not yet spent/paid, as the contract is not yet executed. The development of the Reducing Opioid Misuse Using Primary Prevention Approaches (ROMPPA) Project was coordinated and the framework was established with weekly meetings occurring with the Technical Advisor Team. Additionally, coordination of the school implementation plan was developed and a school district was identified to partner and pilot the ROMPPA Project which resulted in school meetings and district approval activities. The first six months of the Reducing Opioid Misuse Using Primary Prevention Approaches (ROMPPA) project focused on establishing both the processes and the relationships required to ensure the project's successful, long-term implementation. This groundwork included: 1.) devising ROMPPA- specific project materials, 2.) identifying and engaging first implementation school district, and 3.) coordination with external project contributors.		1 Approved
York	#11	Wellspan Health	Wellspan CRS & Hygiene Kits	\$228,230.00	B	• B. Support People in Treatment and Recovery • C. Connect People Who Need Help to the Help They Need (Connections to Care) • H. Prevent Overdose Deaths and Other Harms (Harm Reduction)	0	The proposal to embed the two full-time, grant-funded CRS positions for specific shifts in York Hospital (YH) ED is based on the ED's utilization data: In the calendar year 1/1/2023-12/31/2023, the ED had 6549 encounters involving substance use disorders, 969 of which were for opioid overdoses for which the RASE Project provides warm handoff. YH ED Leadership continues to express concern about that the 5580 individuals who presented for SUD encounters exceeds the capacity of the ED providers and the RASE Warm Handoff Responders in their efforts to identify needs and provide access to treatment. WellSpan's opioid grant funded project seeks to aid in alleviating this issue. 500 Hygiene kits will also be purchased from Leah's Legacy and distributed.		1 Approved
